□ Preliminary Roadway Design & Typical Section

- 12-foot wide asphalt drive lanes with 2-foot wide curbs
 - 28-foot wide top back of curb to top back of curb
- New Street Lighting System
- 6 foot wide grass boulevard (Optional, see Response Sheet)
- 5 foot wide sidewalk (Optional, see Response Sheet)
- End curb ~250 feet east of Texas. Reconstruct roadway with 12-foot wide asphalt drive lanes and roadside ditches to eastern City Limits.
- No sidewalk planned east of Texas.

Edgewood Place Reconstruction Project

□ New Storm Drain System

- Combination of roadside ditches, inlets and pipes
- Opportunity for private sump pump connections
- If you have a sump pump that you would like to connect, please inform the design team

□ Possible Edgewood Speed Limit Reduction from 35 to 25 mph

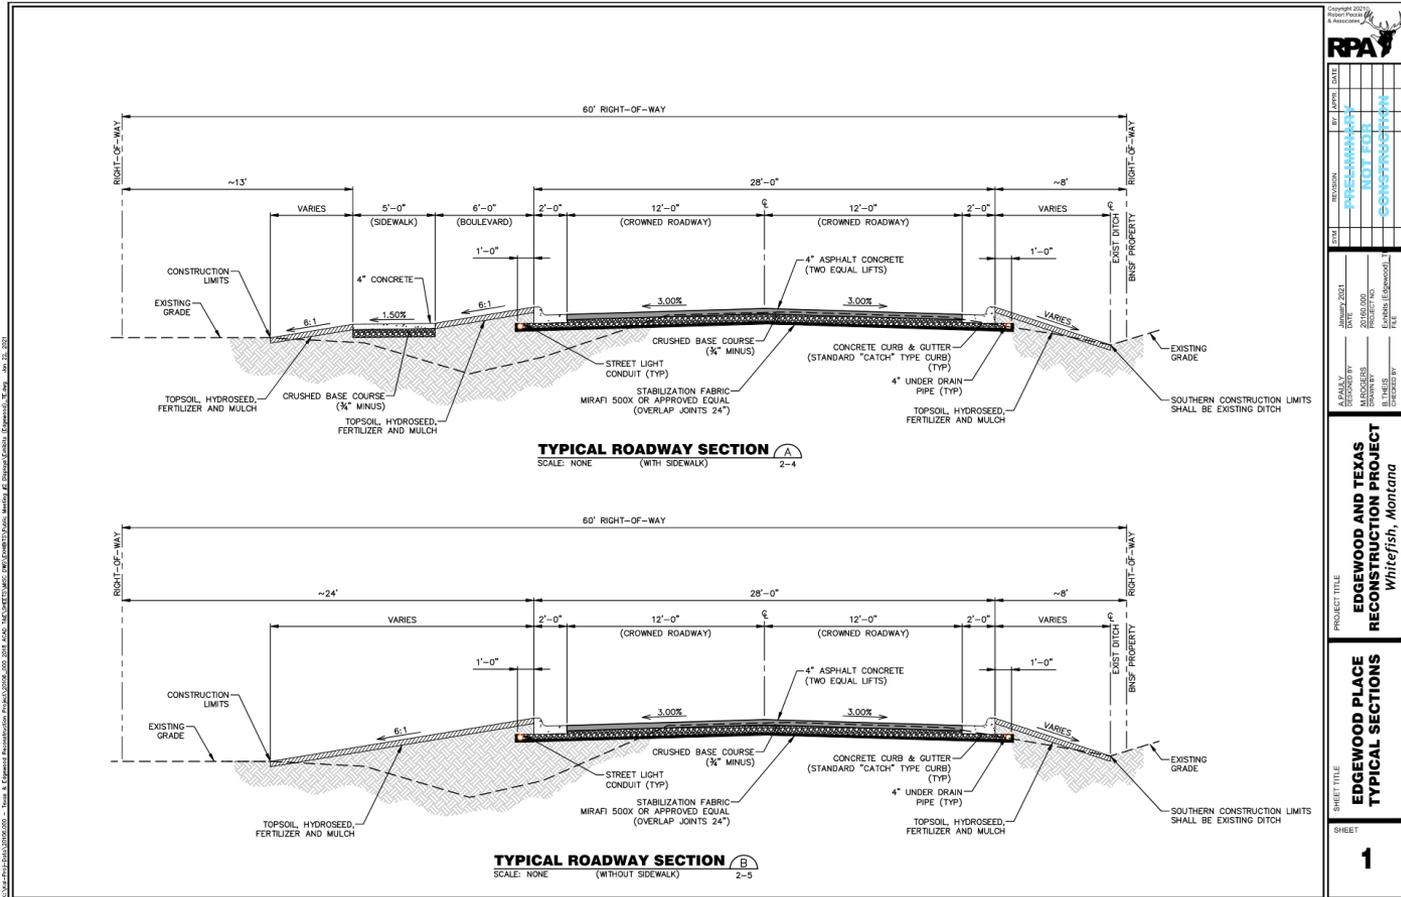

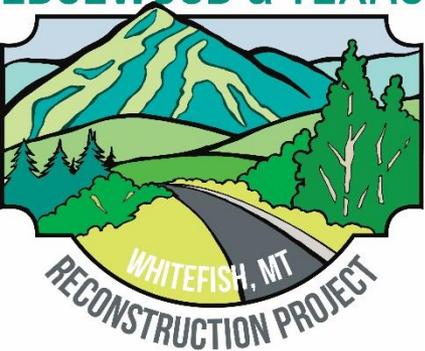

- Design team will be recommending a 25 mph speed limit change to the City Council for review and approval

□ Possible 3-way Stops or RRFB at Colorado Ave. and Texas Ave. Intersections

- Increased Pedestrian Safety at Edgewood Crossings
- RRFB – Rectangular Rapid Flashing Beacon (current example at Baker & E 1st Street)
- If warranted by engineering, additional stop signs to be reviewed and approved by City Council.
